4. DESCRIPTION OF BIT2ME EARN

4.1. SERVICE

In order to use the Bit2Me Earn services, you will need to create an account through the Bit2Me platform, and then you will be able to access the Bit2Me Earn services.

The Bit2Me Earn service allows you to earn a reward on certain cryptocurrencies transferred to Bit2Me and which will remain for information purposes blocked in the user's Bit2Me Earn Wallet. In exchange for such transfer and blocking, the user will obtain rewards in the same cryptocurrencies transferred and blocked or in B2M Token according to the conditions chosen by the user.

The services provided by Bit2Me Earn are not considered an investment, nor a speculative tool. The User, through the Bit2Me Earn service, obtains rewards for the transfer and blocking of its cryptocurrencies for a certain period of time in favor of Bit2Me, in accordance with these Specific Terms.

4.2. SUPPORTED CRYPTOCURRENCIES

Currently cryptocurrencies supported by the Bit2Me Earn service can be accessed through the following link:

<https://bit2me.com/suite/earn>

All these cryptocurrencies are listed on the Bit2Me platform in the Bit2Me Earn section and are subject to review, at our sole and absolute discretion.

4.3. REWARDS

- a) Rewards will start to be calculated on the cryptocurrencies transferred and blocked, per minutes completed since their transfer and blocking in the Bit2Me Earn Wallet and will be earned in the same type of cryptocurrencies that is transferred and blocked or in B2M Token. The rewards will be reflected in your Bit2Me Earn account balance.
- b) The percentage of the rewards will be variable. The customer within the Bit2Me Earn service will be able to see the estimated annual reward that would be applied to his cryptocurrencies. Bit2Me, depending on the cryptocurrencies, market and other technical factors, will always offer the user the best possible reward percentage, which may vary depending on market conditions and various factors. Such percentage (APY) may be updated by Bit2Me based on such changes and will be displayed to the user at all times through the Platform in the reward percentages.

The rewards will be delivered daily in the cases in which the client decides to receive B2M Tokens, in the rest of the cases the delivery will be made weekly being Monday the day set for such delivery.

- c) Bit2Me reserves the right to grant preferential rewards to certain customers, as part of marketing campaigns or other reasons, at its sole and absolute discretion.
- d) Depending on the reward to be received by the user, you can choose between three types of service:

1) REWARDS IN THE SAME CRYPTOCURRENCY

- The client will be able to transfer and block any cryptocurrency supported by Bit2Me Earn and receive his reward in the same cryptocurrency, except in cases of services with B2M Token. The rewards of this mode will be received on a weekly basis.
- The calculation of the percentage will be done every minute, so the client will know in real time when the percentage change takes place on the Bit2Me platform, within the Bit2Me Earn service. The updated percentage is immediately applicable.
- In these cases, the percentage applicable to the cryptocurrencies transferred and blocked will be subject to review by Bit2Me, at our sole and absolute discretion. Bit2Me reserves the right to set and modify such percentage, which will be variable.

2) REWARDS IN B2M TOKEN

- The client will be able to transfer and block any of the above-mentioned cryptocurrencies and receive his reward in B2M Token.

- If the client chooses the delivery of the rewards in the B2M Token, the reward is received daily and an extra 2% is added on top of the percentage of the reward (of mode 1), which the user was going to receive.

3) B2M TOKEN TO B2M TOKEN

- The client will be able to transfer and block B2M Token and receive his reward in B2M Token. In this case, the rewards will also be received on a daily basis.
- The procedure consists of allocating a certain number of B2M tokens to be distributed between each transfer and blocking performed on a proportional basis. Based on this ratio of tokens to be distributed and number of tokens corresponding to each unit of B2M tokens transferred and blocked in Bit2Me Earn, we can deduce the equivalent annual reward (APR) and knowing the frequency of distribution of rewards, also its annual distribution percentage (APY). This calculation will be an estimate of what each user would receive in case the conditions that influence token sharing, such as the amount of tokens to be distributed and the number of total tokens transferred and blocked in Bit2Me Earn, remain unchanged. In addition, this calculation will be updated every minute.

Additionally, a modifier will be applied to the APY calculated according to the user's TIER, which may increase the percentage applicable to its transfer and blocking. The rewards received by users who store B2M tokens will be based on the calculation mentioned above. This calculation will also be performed every minute and will be delivered on a daily basis.

As an example, if 100.000.000 B2M tokens are offered to be distributed for a whole year, the amount of tokens to be distributed in the form of rewards on a daily basis will be 273.972 B2M tokens. Assuming that the number of total B2M tokens deposited in Bit2Me Earn is 175.000.000 the annual return will be 57.14%:

$$\frac{273.972 * 365}{175.000.000} = 0,5714$$

Considering that the frequency with which these rewards will be distributed is daily, the equivalent APY would be 77%:

$$\left(1 + \frac{0,5714}{365}\right)^{365} - 1 = 0,77$$

In this scenario, the rewards that would apply to a user who has deposited 1,000 tokens would be 0,065228311 B2M tokens. First, we will calculate the percentage to be applied equivalent to one day:

$$\frac{57,14\%}{365} = 0,1565\%$$

Subsequently, we will calculate the rewards that apply to that day according to the previously calculated percentage:

$$1.000 * 0,1565\% = 1,565$$

The total number of B2M tokens to which the user is entitled is 1,565 to be added to the total of 1,000 tokens already stored in Bit2Me Earn.

Since the percentage to be applied in the calculation of rewards will always depend on the total volume of B2M token deposits in Bit2Me Earn, it may vary significantly. The platform will calculate every minute both the percentage to show and the number of tokens that correspond to each user for that minute. In the following table you can see multiple examples, for different assumptions where to distribute the 100.000.000 B2M tokens during a year, what would be the percentages to apply depending on the total number of B2M tokens deposited in Bit2Me Earn:

Total B2M tokens deposited	APR	APY
250.000.000	40,00%	49,15%
175.000.000	57,14%	77,00%
62.500.000	160,00%	393,57%
42.800.000	233,64%	926,77%

4) B2M REWARDS IN BITCOIN (BTC)

The User can transfer and block B2M and receive his rewards in Bitcoin (BTC). To do this, the User must first activate the enabled tab called "Rewards in BTC", which can be viewed after accessing the Bit2Me Earn main menu, and then select one of the "active currencies".

To complete the activation of the service, the user must accept the terms and conditions that will be displayed once the user enables the tab called "BTC Rewards".

If the User chooses to receive rewards in Bitcoin (BTC), the User gives a sell order to Bit2Me to exchange B2M to BTC. The reward will be received daily and Bit2Me will bear the transaction cost of the exchange from B2M to BTC, which is performed at the request of the User to receive the rewards in Bitcoin (BTC).

The commissions applicable to the Bit2Me Earn service can be consulted through the following link: <https://bit2me.com/es/legal/costes-y-limitas>.

Regardless of the modality chosen by the user, customers belonging to a TIER (purchasers of certain amounts of B2M Token) would be applied an additional percentage in the APY rewards:

- Tier 5: +0.5%
- Tier 4: +1%.
- Tier 3: +1.5%
- Tier 2: +2%
- Tier 1: +2.5%

Rewards will be calculated and delivered up to the eighth decimal place of the corresponding cryptocurrencies. Any digits beyond that will be truncated. Credits of rewards will be truncated to eight decimal digits (one hundred millionth of a unit).

4.4. DEADLINES FOR BLOCKING

- a) The percentage and terms for the transfer and blocking of cryptocurrencies for the collection of rewards will be made according to the option chosen by the user.

The term of transfer and blocking that Bit2Me Earn offers is only the open term mode, i.e. the client can withdraw at any time the transferred and blocked cryptocurrencies from the Bit2Me Earn wallet, however the minimum term for it to generate a reward is 1 full minute.

- b) The customer may hold multiple cryptocurrencies supported by the Bit2Me Earn Service, simultaneously generating rewards. The rewards will be accumulated separately in each Bit2Me Earn Wallet. Also, such rewards accumulated and blocked in the Bit2Me Earn Wallet will generate new rewards.
- c) You understand and agree that Bit2Me may transfer, dispose of or use any amount of any cryptocurrencies transferred and blocked by you in favor of Bit2Me Earn, for the time period of transfer and blocking in our sole and absolute discretion. Any such action shall be carried out solely on behalf of Bit2Me and you shall have no liability for the same.
- d) By agreeing to these terms and transferring any cryptocurrencies to the Bit2Me Earn Wallet, you agree to transfer and delegate such cryptocurrencies to Bit2Me in accordance with the terms set forth herein.

4.5. TRANSFER AND WITHDRAWAL OF CRYPTOCURRENCIES

- a) The transfer to the Bit2Me Earn wallet is only possible through the Bit2Me wallets, i.e. prior to the transfer, the client must buy cryptocurrencies in the Bit2Me platform itself and store them in the user's Bit2Me wallets (traditional

wallet) or send cryptocurrencies directly to the user's Bit2Me wallet. Once the client already has cryptocurrencies in the so-called traditional wallets, he/she can transfer them to the Bit2Me Earn wallet, being the same blocked in the Bit2Me Earn wallet.

There is no minimum or maximum amount of cryptocurrencies to be able to access Bit2Me Earn services. Also, Bit2Me reserves its sole discretion to set a minimum and maximum balance in the future.

- b) The client can withdraw cryptocurrencies and rewards immediately, in whole or in part. Such cryptocurrencies and rewards will be deposited in the customer's Bit2Me Wallet (traditional wallet). From that moment on, such withdrawal will totally or partially terminate the transfer and blocking of the corresponding cryptocurrencies in favor of Bit2Me and therefore rewards will no longer accrue. It is possible that on some occasions the transfer may not occur immediately, and the user may experience some delay in the transfer. Bit2Me will at all times attempt to immediately withdraw and transfer the user's cryptocurrencies blocked in the Bit2Me Earn wallet.
- c) The rewards will be delivered to the Bit2Me Earn wallet. To withdraw and unlock them, the client will have to transfer them to his traditional Bit2Me wallet, otherwise they will be considered to be added to the blocked cryptocurrency generating rewards again.

5. CONSENT TO THE USE OF CRYPTOCURRENCIES BY BIT2ME

In consideration for the rewards obtained for the transfer and blocking of the cryptocurrencies to Bit2Me, you grant to Bit2Me, subject to applicable law and for the period of time the cryptocurrencies remain transferred and blocked in the Bit2Me Earn wallet, all rights to the use of such cryptocurrencies, including the right to transfer or use any amount of such cryptocurrencies, separately or together with others, the ownership rights therein, and during the period of time of transfer and blocking, and to use such cryptocurrencies in Bit2Me's sole discretion.
